WHAT IS FAMILY CRISIS? WHO IS A CHILD IN CRISIS?

WHY HELP A CHILD IN CRISIS?

- Adverse childhood experiences results in high risk for addiction.
- Depression, aggression, Emotional and behavioural difficulties;
- Chronic illness, lung diseases, cancer, stroke.
- Shorter life expectancy, low performance, poorer education.

90 – 100% higher risk that cognitive and emotional development will slow down due to adverse childhood experiences.

WHAT DOES A CHILD NEED?

Hot water, a tutor

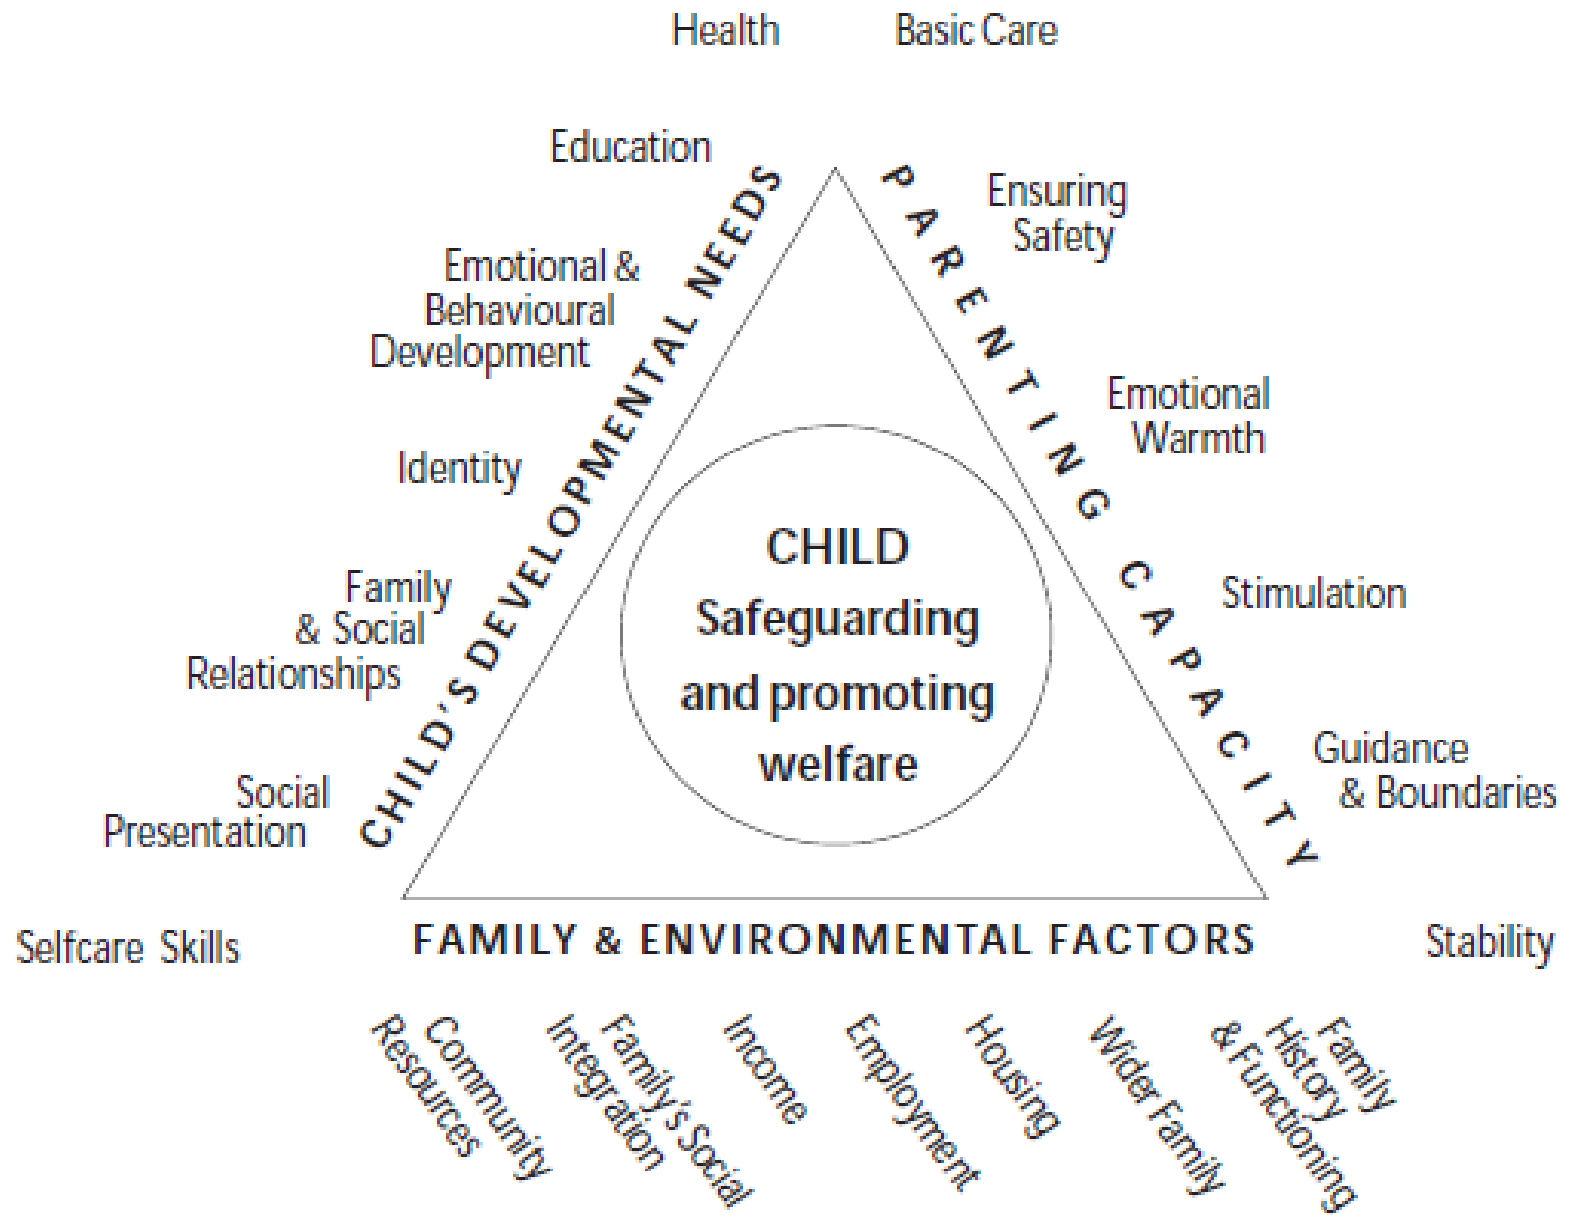

New house, socialising

High school, not a professional school

HOW TO HELP A CHILD IN CRISIS?

Example: Children in crisis

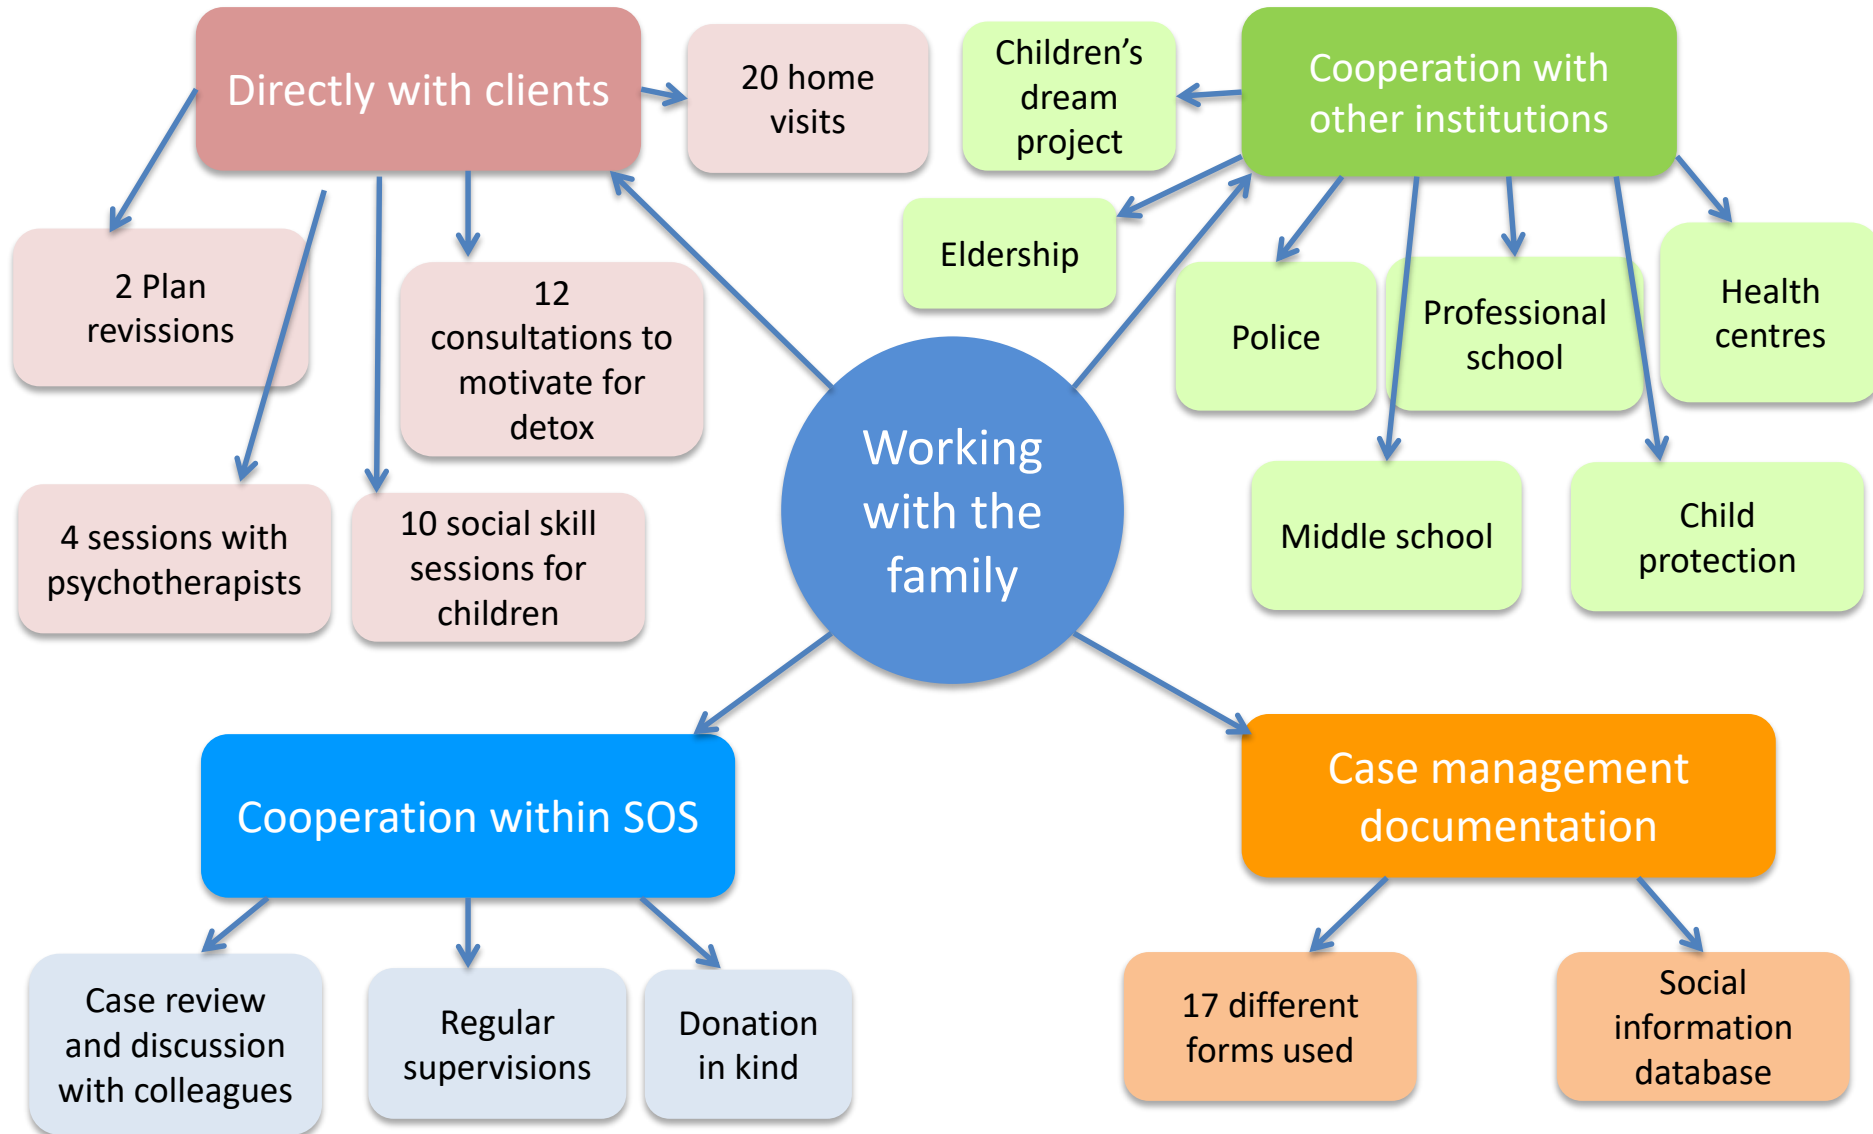

- 4 under-age children.
- 1 grown up daughter, who returned from care institution and lives together.
- 1 room and kitchen accommodation. In need of renovation. Alcohol, lack of life skills, unclean.
- Youngest children beg during the summer, ask tourists for money, steal food from neighbours.
- Family has been in the register for social risk since 2007.
